

LET US MANAGE YOUR
HURRICANE 
RECOVERY EFFORTS

As the largest emergency response provider in North America, we already have the resources and equipment to assist our customers with cleanup and recovery efforts in the affected areas.

CleanHarbors[®]

Disaster Recovery Services for Retailers

If you have stores, offices or warehouses impacted by Hurricanes Irma or Harvey, we can help.

Clean Harbors provides safe, efficient environmental and waste management solutions to thousands of retail locations across North America. With first-rate expertise, extensive equipment inventory and broad capabilities, Clean Harbors manages the environmental needs of retailers, allowing you to focus on your business and bottom line.

We are a national disaster relief supplier:

- Turnkey disaster recovery services
- Flood water management and mobile treatment
- Debris removal and disposal, ranging from sheetrock to flooring
- Hazardous waste collection and chemical identification, packaging and disposal
- Vacuum truck services, including emergency pump-outs and spill cleanups
- Rolloff container rentals and transportation
- Collection, recycling or disposal of damaged goods, such as food waste, cosmetics, pharmaceuticals and DEA controlled substances

What We Offer

- Flood water management and mobile treatment
- Equipment rental and transportation
- Debris removal and disposal

Our Emergency Response Experience

Each year, Clean Harbors manages more than 4,000 environmental emergencies or disaster recovery operations throughout North America. Our large-scale emergency response efforts have been utilized for some of the largest disasters and events, including:

- The Gulf Spill, Kalamazoo River and Yellowstone River oil spills
- Hurricanes Katrina, Rita and Sandy
- Avian flu outbreaks
- World Trade Center disaster
- Numerous pipeline breaks, train incidents and chemical releases
