Re: Clean Harbors Canada, Inc. Acquisition of EnviroSORT, Inc.

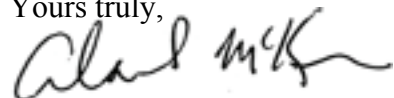

Dear Valued Customer:

We are pleased to announce that Clean Harbors Canada, Inc. acquired EnviroSORT, Inc. on February 27, 2009. The company will continue to operate as EnviroSORT, and is a wholly owned subsidiary of Clean Harbors Canada, Inc. You will continue to be serviced by the same personnel and the phone numbers will not change. Our foremost priority is to ensure that customers continue to experience a seamless continuation of services.

Through the combination of EnviroSORT and Clean Harbors, a full range of services and waste management options are now available to you. Clean Harbors Canada, a leading provider of environmental and hazardous waste management services, offers waste disposal, laboratory chemical packing, field service and emergency response. Our infrastructure of sixteen service locations in six Canadian Provinces includes two incineration facilities, two landfills for hazardous and non-hazardous waste, and eight waste processing and transfer facilities.

We believe the combined strengths of the two companies provide a great platform for building a company committed to delivering superior services. Thank you for your business and we look forward to a great future together.

Yours truly,

Alan S. McKim
Chairman, CEO and President
Clean Harbors Environmental Services Inc.
