

NOTICE OF WALPOLE ISLAND COMMUNITY MEETING

CLEAN HARBORS LAMBTON LANDFILL EXPANSION, TOWNSHIP OF ST. CLAIR ENVIRONMENTAL ASSESSMENT TERMS OF REFERENCE

Clean Harbors Canada, Inc. the owners and operators of the Lambton Landfill, wishes to develop additional waste disposal capacity at the landfill. The existing approved capacity of the landfill will be fully utilized within approximately 4 years. The additional capacity would allow Clean Harbors to continue its landfill business operations in Ontario and to service its existing customers. The landfill is located in the Township of St. Clair (see Key Map below) and has been in operation for nearly 50 years. The landfill receives hazardous waste materials from commercial, industrial and institutional sources.

The Process

Expansion of the landfill is a designated undertaking under the Ontario Environmental Assessment Act. The first step in the process is the preparation of a terms of reference. The terms of reference set out the proponent's framework and work plan for addressing the Environmental Assessment Act requirements when preparing the environmental assessment, including such things as the alternatives that will be considered and the public consultation activities that will be carried out. If approved by the Minister, the terms of reference will provide the framework and requirements for the preparation of the environmental assessment.

The terms of reference is expected to be submitted for review in Fall 2009. If the terms of reference is approved, the environmental assessment is expected to begin by early 2010.

Community Meeting

The purpose of this meeting is to provide an opportunity for the community to obtain information and provide comments on the proposed approach to the environmental assessment.

In addition to attending this community meeting, you are invited to submit written comments via mail, electronic mail (email) or

fax to the address/number published below. You can also submit your comments on our project information line at 519.864.3890.
