For support with using the Online Services, review the [resources page](#). If you can't find what you need in one of the Quick Reference guides, call 877.333.4244 or email wastepickup@cleanharbors.com. Support is available from 8:00 am to 8:00 pm EST.

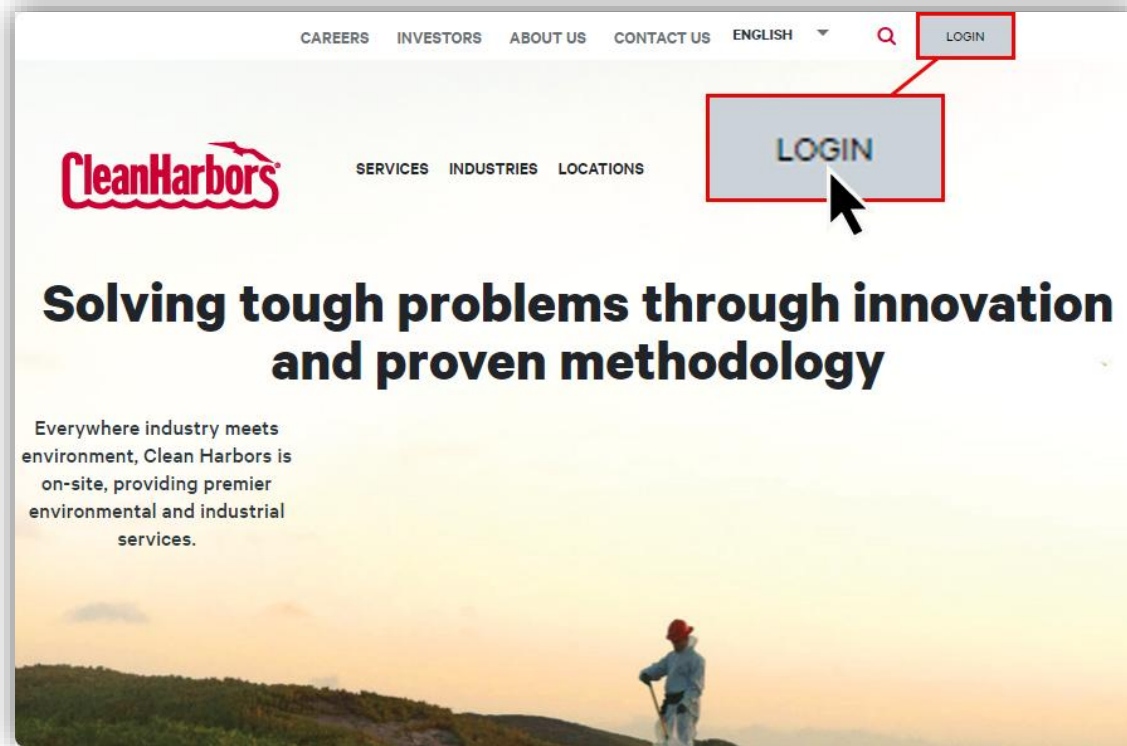

Access and Login

For support with using the Online Services, review the [logging in guide](#). If you can't find what you need in one of the Quick Reference guides, call 877.333.4244 or email wastepickup@cleanharbors.com. Support is available from 8:00 am to 8:00 pm EST.

Clean Harbors Online Services (CHOS)

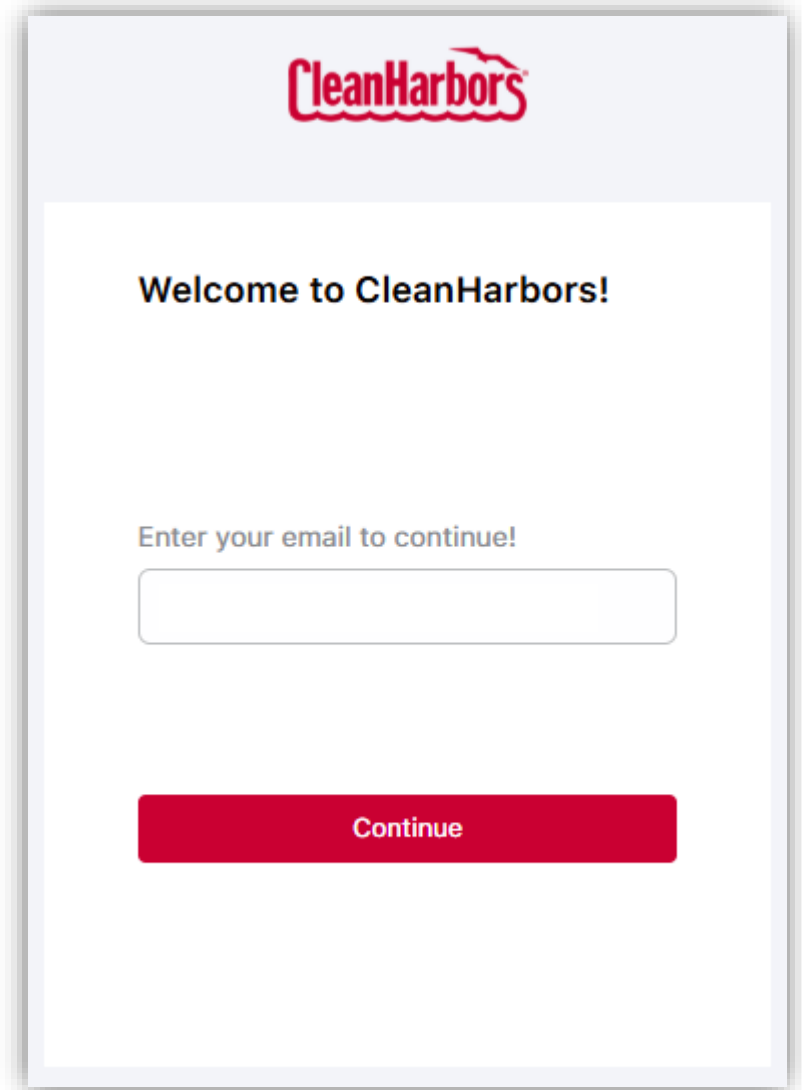

www.cleanharbors.com

How to Login

- Your account manager or support team will set you up in our Customer Relationship Management (CRM) system.
- From there, you will go to our login page and enter the email address you provided to your account manager.
- You can also go through the [Online Services – Sign In User Guide](#) for a guide through the registration and login process
- If your email address is not found in our CRM, you will be sent to the registration page, which will ask you to fill out the form with your details. Detailed in the next slide

CleanHarbors

Welcome to CleanHarbors!

Enter your email to continue!

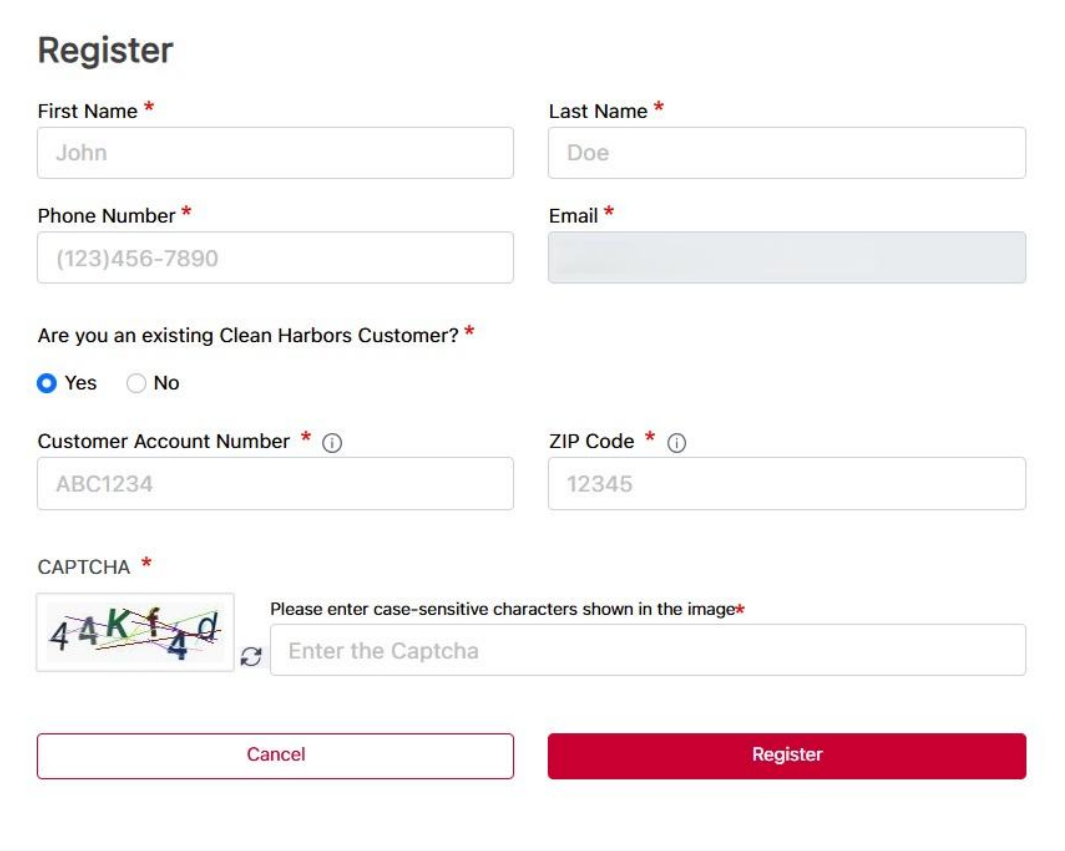

Continue

Registration Page

- Fill Out the Registration Form if your email address is not found in our CRM
- You'll need to provide mandatory info marked with a red asterisk (*)
- Click **Submit** or **Register** once the form is complete.
- You'll typically receive an email confirming your registration request.
- A Clean Harbors team member will validate your request and confirm when you have access.

The registration form is titled "Register" and features the Clean Harbors logo at the top. It contains several input fields for user information, each marked with a red asterisk to indicate it is mandatory. The fields are: First Name (containing "John"), Last Name (containing "Doe"), Phone Number (containing "(123)456-7890"), Email (empty), Customer Account Number (containing "ABC1234"), and ZIP Code (containing "12345"). There is a radio button selection for "Are you an existing Clean Harbors Customer?" with "Yes" selected. A CAPTCHA section includes an image of the characters "44Kf4d" and a text input field for the user to enter these characters. At the bottom, there are "Cancel" and "Register" buttons. The footer of the form area includes the text "Clean Harbors Software as a Service™ | Privacy & Terms".

Settings:

Email Preferences > Shipment Delivery

- When a shipment arrives at a Clean Harbors facility, an email is sent to CHOS users who have the shipment delivery flag set to "Yes."
- The Document Tracking # link provides access to a copy of the manifest.
- The names of the manifested facilities, along with the generator signature and facility signature dates, are presented in a table.

For support with using the Online Services, review the guide for [locations](#). If you can't find what you need in one of the Quick Reference guides, call 877.333.4244 or email wastepickup@cleanharbors.com. Support is available from 8:00 am to 8:00 pm EST.

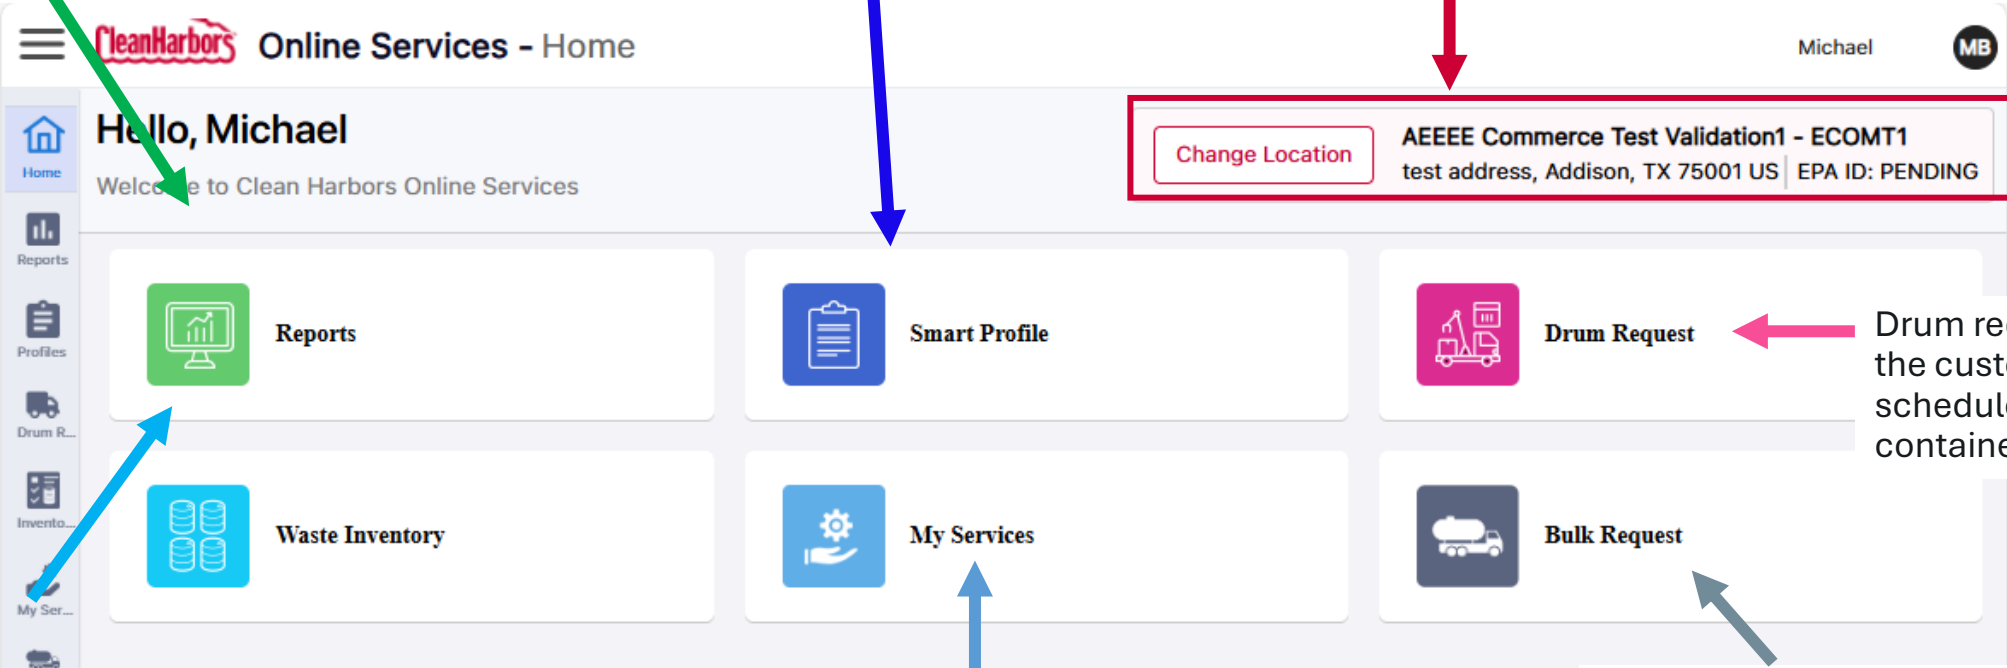

Home Page

Reports that help to gather information to meet federal, state, and internal reporting requirements.

Creating waste profiles with help from AI to fill in form fields and speed up the approval process to keep your projects moving forward.

It's important to check. To launch the location navigation feature, click on the company name, address, and EPA ID.

Manage waste inventory located in waste storage locations.

View all your completed services and their shipping document. Depending on the services provided, users can view upcoming dates.

Allows you to request and view shipments of bulk waste profiles.

Note: Not all customers see all tiles.

Getting Started: View/Select Generators

- The View/Select Generator page identifies all Company Codes (WIN IDs) assigned to the user
 - Displays data associated with each account
 - Company address information (generator)
 - Billing code and address (cust/gen info)
 - EPA ID #
- It is essential to validate that the user is working on the correct location

NOTE: To access more locations in CHOS, contact your account manager and ask to be added as a contact. Once in our CRM, you will see the associated site in CHOS.

Reports

For support with using the Online Services, review the guide for [reports](#). If you can't find what you need in one of the Quick Reference guides, call 877.333.4244 or email wastepickup@cleanharbors.com. Support is available from 8:00 am to 8:00 pm EST.

Reports

Self-service fulfillment of regulatory and internal reporting requirements.

- **Manifest Tracking** – summary of shipping activity with links to view and print final copies of shipping papers.
- **Waste Tracking** – a detailed or summary view of shipment history and confirmation of final disposition.
- **Customer Biennial Data Extract** – Easily download the data needed to satisfy biennial regulatory reporting requirements.
- **Certificate of Disposal** – view and print certificates by shipping document.
- **Area and Cost Center Disposal Tracking** – track shipped waste back to areas and cost centers.
- **Inventory**– lists all container data related to current inventory.
- **Profile Summary** – produce a list of profiles, including profile info, approval status, and approved facilities.
- **Invoice Summary** – provides access to invoice history and images.

Invoice Summary Report	This produces a summary report of invoices within the specified data range. The date range reflects the date the invoices were printed. There may be up to a 14 day delay from the invoice date to the date the invoice is available on this report. The pdf option includes a hyperlink to the invoice image. The report can be run by company type of "gen" or "cust/gen". If run by company type of "cust/gen" you have the option to generate the report for all associated (co-linked) generators.	
Invoice Summary Report Multi Gen	This produces a summary report of invoices within the specified data range. The date range reflects the date the invoices were printed. There may be up to a 14 day delay from the invoice date to the date the invoice is available on this report. The pdf option includes a hyperlink to the invoice image. The report can be run by company type of "gen" or "cust/gen". If run by company type of "cust/gen" you have the option to generate the report for all associated (co-linked) generators.	
Manifest Tracking	Produces a list of shipping documents such as manifests & bill of lading received by a Clean Harbors' facility. The report can be run by customer code, generator code, or sales order # with a given date range of up to 12 months. If run by customer code you have the option to generate data for all associated (co-linked) generators. The delivery options include view report now or send via email. The pdf format includes hyperlinks to scanned shipping documents and weight tickets.	
Profile Summary CSV	Provides a listing of the generator's profiles; including waste description, approval status, approved facilities and shipping information. The report can be run by company type of "gen" or "cust/gen". If run by company type of "cust/gen" you have the option to generate the report for all associated (co-linked) generators. This report has been optimized for CSV file format.	
Profile Summary CSV Multi Gen	Provides a listing of the generator's profiles; including waste description, approval status, approved facilities and shipping information. The report can be run by company type of "gen" or "cust/gen". If run by company type of "cust/gen" you have the option to generate the report for all associated (co-linked) generators. This report has been optimized for CSV file format.	
Profile Summary PDF	Provides a listing of the generator's profiles; including waste description, approval status, approved facilities and shipping information. This version is optimized for PDF file format.	
Sales Order Cost Allocation Summary	Sales Order Cost Allocation Summary Report displays cost allocation for a given sales order	
Waste Tracking CD	Certifies that the waste has been received and will be treated and disposed of in accordance with applicable federal and state laws and regulations. This certificate does not meet the TSCA regulation standards, all TSCA certificates will be mailed to generators as required by regulations.	
Waste Tracking Detail	Produces a detailed report of all waste shipments to Clean Harbors facilities displaying all plant to plant shipments.	
Waste Tracking Summary Report	Produces a summary report in CSV file format of all waste shipments to Clean Harbors' facilities. The report can be run by company type of "gen" or "cust/gen". If run by company type of "cust/gen" you have the option to generate data for all associated (co-linked) generators.

- This data extract is an excellent tool for large quantity generators when completing U.S. EPA Biennial Reports.
- It produces a report in a CSV/PDF/Excel file of manifest information for biennial and other compliance reporting.

Compliance - Regulatory Header

Inspector Name

Area of Inspection

Inspection Performed Date03/12/2024 12:32 PM

Inspection Date and Time03/12/2024 12:33 PM

Location Description

Identify the source of the bin that is being audited

Ultimate Parent : Alexandria
Parent : Red Label Storage Room

STORAGE AREA

Signs are posted and readable

Pass

There is adequate aisle space between rows - 3 feet is suggested

Pass

Waste are segregated from non waste materials (Waste & non-waste are not required to be fully segregated from one another, but they must be easily distinguishable as waste or non-waste by their marking or other means)

Pass

Incompatible wastes are segregated or separated by at least 4 ft in every direction (A storage container holding a hazardous waste that is incompatible with any waste or other materials stored nearby must be separated from the other materials or protected from them by means of a dike, berm, wall, or other device)

Pass

There is good housekeeping in the area

Pass

There is no evidence of spills or leaks

Pass

Flammable and reactive wastes are greater than 50 Ft. from property line

Pass

DRUM CONDITION

In good condition: none damaged, bulging, or badly rusted

Pass

- File of all the inspections completed during a one-year timeframe.
- Download or have it emailed in XLS format.

Benefits of Utilizing the CHOS – Smart Profile

- Manage profiles 24/7 for multiple generator locations from one system.
- System notifications let the user know when action has been taken.
- Utilize the copy feature to minimize the time of data entry.
- Create new profiles, edit, recertify, view, and print existing profiles.
- Most profiles created from the template process will automatically be approved upon submission.

If you cannot find a template that matches, click the “Create Smart Profile” button to start from scratch. [Create Smart Profile](#)

Smart Profile: Create Using a Template

- Templates require minimal user input; the system populates most of the information
- Fill in the remaining required information.
- Click on Validate and fix any errors.
- Please select the Electronic Submission Authorization Type and click on Electronic Submittal to finish.

The screenshot shows the 'Create Profile' form in the Clean Harbors Online Services. The form includes fields for Profile Number (CH2966460), Customer Waste Description (Waste fuels - gasoline, diesel fuel or fuel oils), and What is the process of generating the waste? (Unwanted or off-specification fuel). It also has a dropdown for 'Are these values based on testing or knowledge?' (Testing) and a note about analytical testing. Below this are dropdowns for 'Specify the form code associated with the waste' (W219 Other organic liquid) and 'Specify the Source code associated with the waste' (G11 Discarding off-specification, out-of-date, and/or unused chemicals or products). A table of SIC codes is provided, and a checkbox for 'Does the waste stream come from a facility with one of the SIC codes listed under benzene NESHAP' is set to 'No'. The form ends with 'Save & Exit' and 'Validate' buttons.

2812	2813	2816	2819	2821	2822	2823	2824	2833	2834
2835	2836	2841	2842	2843	2844	2851	2861	2865	2869
2873	2874	2879	2891	2892	2893	2895	2899	2911	3312

The screenshot shows the 'Authorization' dialog box. It has a title bar with a close button. The main content area has the heading 'Select Authorization Type' followed by a radio button labeled 'Electronic Submission'. Below this is a paragraph of text: 'This option will track your logon credentials as the electronic signature and eliminates the need for faxing or e-mailing a signed profile. Note: This option is available only to the Clean Harbors Online Services users. Profiles must be submitted to initiate the approval process. You are about to submit a profile for approval. A signed copy of each profile is required to be on file prior to approval. This requirement can be met by agreeing to Clean Harbors electronic submittal policy or by submitting, printing and e-mailing or faxing a signed profile.' At the bottom right are 'Cancel' and 'Electronic Submittal' buttons.

Create Smart Profile

- The number of fields requiring data entry is significantly reduced.
- Key in a profile number or generate one.
- Answer a few quick questions and then enter your composition.

Create Smart Profile

- When entering the composition, pay close attention to the total minimum (80%) and total maximum (120%) composition percentages.
- The system will prompt you when the minimum and maximum values have not been met.
- Conduct searches using the Trade Name and CAS Number, along with the compositions.
- The system allows you to change the unit of measure (UOM)

Composition (Total minimum composition must be 80%)

Composition / Trade Name / CAS #	Unit of Measure	Min	Max	
<input type="text"/>	- Select -	<input type="text"/>	<input type="text"/>	<button>Add</button>
ACETONE	% - Percent	5	15	
ISOPROANOL	% - Percent	50	60	
PERCHLOROETHYLENE	% - Percent	1	5	
TOLUENE	% - Percent	25	30	
Water	% - Percent	1	5	

Total Min: 82 % Total Max: 115 %

- Select -

- % - Percent
- PPM - Parts Per Million
- PPB - Parts Per Billion
- T - (Trace < 1 PPM)

Create Smart Profile

- At any point in the process, click on “Save & Exit” to put the profile in a “Tentative” status on the workbench
- When the composition has been entered, click on Proceed.

Benefits of Utilizing the CHOS Bulk Request Process

- Reduces phone calls and emails with a self-service form to create a pickup request.
- Provides 24/7 access and visibility into current and past requests.
- Our Customer Service team supports fulfilment.

My Services

For support with using the Online Services, review the guide for [My Services](#). If you can't find what you need in one of the Quick Reference guides, call 877.333.4244 or email wastepickup@cleanharbors.com. Support is available from 8:00 am to 8:00 pm EST.

My Services: Completed Services

- Orders with waste shipped will be hyperlinked to a waste tracking summary report.
- 'Service Type' column provides additional information about the type of order: Retail, Pharmacy, DEA, Fuel, etc.
- Service documents are available for download
 - **SD** = Shipping Document (Manifest, Weight Ticket)
 - **SF** = Survey Form
 - **LDR** = Land Disposal Restrictions
 - **DEA** = Drug Enforcement Agency
 - **NW** = No Waste
 - **COD** = Certificate of Disposal

The screenshot displays the 'Online Services - My Services' page. A search bar at the top left contains a list of service types: DEA Pharmacy Service, Pharmacy Service, Retail Service, Zero Stop Fee Pharmacy Se..., and Retail Service. A callout box labeled 'Filter by Waste Shipped or Service Date.' points to the 'Filters' panel on the right, which includes options for 'Waste Shipped' (ALL) and 'Service Date' (Last Month, Last 2 Years, Last 3 Years). Another callout box labeled 'Filter by service type.' points to the 'Service Type' dropdown menu. The main table lists completed services with columns for Sales Order #, Manifest #, Service Date, Service Type, Waste Shipped, and Service Documents Folder. A callout box labeled 'Click the Link to download' points to a link in the 'Service Documents Folder' column. Another callout box labeled 'Click on a DOC to download a PDF document' points to a document icon in the same column. A third callout box labeled 'Waste Tracking Summary Report' points to a link in the 'Service Documents Folder' column.

Showing 1 to 3 of 3 entries Show 20 entries Previous 1 Next

- **Service Type:** additional information about the type of order: Retail, Pharmacy, DEA, Fuel, etc...
- **Service Frequency:** service term of generator/customer and the type of service
- **Last Service Date:** when service was performed last.
- **Projected Scheduled Service:** expected ‘week of’ service based on the ‘Last Service Date’ and ‘Service Frequency’
- **Confirmed Service Date:** Shows when the service has been placed on a route and has confirmed service date, otherwise it shows ‘blank’.
- Orders without a service frequency will appear with the ‘Service Frequency’ and ‘Last Service Date’ as blank, ‘Projected Scheduled Service’ and ‘Confirmed Service Date’ will display and update accordingly

Conclusion

Ease of Use

Leverages modern technology and security standards

Improved efficiencies

Instant access to data

Cost savings

Increase productivity for the customer and Clean Harbors

Integrated system

Streamlines reporting, profiles approvals, order processing
