*You are hereby notified that I have amended Approval No. A031806 issued on September 5, 1997 and amended on November 1, 1998, December 4, 1998, October 11, 2002, June 17, 2004, June 18, 2007, August 29, 2007, September 23, 2008, August 6, 2010, May 3, 2013, October 19, 2015, October 20, 2016, September 22, 2017, August 1, 2019, April 22, 2020, November 30, 2020 and August 21, 2021 for the use and operation of a landfill site with a total fill area of approximately 61 hectares, which includes the pre-1986 fill area, previous operating 14.5 hectare fill area, the Cell 18 expansion area of 13.1 hectares and a landfill pre-treatment system (including processing), and temporary storage and transfer activities, all within the total site area of 140 hectares), , as follows:*

Condition 45 is hereby revoked and replaced by:

45. The Owner is approved to temporarily store waste in accordance with Items (38), (39) and (40) of Schedule "A", subject to the following conditions:
- a. No additional waste may be deposited into the temporary storage area;
  - b. By October 31, 2022, construction and installation of interim cover and leachate collection and conveyance features must be completed and in operation;
  - c. Pumps, lines and other equipment used to remove leachate from the storage area shall be protected from damage and maintained in good working order;
  - d. The temporary storage area must be inspected daily to confirm the integrity of the containment berms, assess for the presence of leachate seeps and assess the potential for leachate to run over the top of the berms. With approval of the District Manager, the frequency of inspection can be reduced after the leachate collection system is operational. Written records of the inspections must be maintained which records the results of each inspection and description of any

remedial measures that are undertaken.

- e. Any leachate from seeps must be collected and conveyed to the leachate collection system.
- f. If leachate seeps are detected after installation of the intermediate cover and leachate collection system, then the Owner must propose additional measures to prevent seeps, including consideration of removal of all waste from the storage area.
- g. Notification must be sent to the District Office thirty days prior to stored waste being removed from the temporary storage and landfilled.

The following items are hereby added to Schedule "A":

- (39) Application to amend Environmental Compliance Approval A031806 for the installation of interim cover and a leachate collection system the temporary waste storage area, dated March 30, 2022 and signed by Mike Parker, VP, Compliance, Clean Harbors Canada, Inc.
- (40) Letter from James Yardley, P.Eng. GHD to Ian Parrott, MECP, dated June 7, 2022 re: Response to MECP comments, including details of geotextile drainage layer for Cell 20-1.

The reason for this amendment to the Approval is as follows:

The reason for Condition 45 is to approve the installation of interim cover for the temporary storage area and the use of a geotextile drainage layer in Cell 20-1 and to ensure that waste is stored in a secure manner and that leachate is safely managed. This is necessary for the protection of the health and safety of people and the environment.
